

## Our Stein-Bloch Evening Clothes and Dinner Suits

Of all the garbs worn by men the sad-toned society clothes require, like the frock, the most workmanship to save them from the deadly commonplace. Hand-ed over to the clumsy fingers of mediocrity, they are ruined, for having naught to distract the gaze in point of color or pattern they focus the eye unerringly on botched outline or slighted curve. Master tailors make the Stein-Bloch Evening Clothes the year around, and confer upon them the ripe experience of 51 years of shears and needle. Silk lined, graceful, patrician, and precise in fit. Materials—finest English undressed worsteds and West of England twills woven especially for this purpose.

PRICE: Complete Suit, \$45.00  
Coat, \$27.50.

Wearers of Stein-Bloch Evening Clothes have this great advantage in economy: The materials of Stein-Bloch Evening Clothes are identical, and you can buy the coat you lack to go with the dress trousers and waistcoat you have, thereby at light expense being full wardrobe for the social calendar.

C. Mr. Buckner was compelled to leave Pensacola on account of his health, which demanded a higher altitude, and he comes back almost entirely well and greatly increased in weight. ## FIRST GAME OF FOOTBALL OF SEASON

Will Be Played Next Saturday Between Classical School and Mobile Military Institute.

The first game of football of the season to be seen in Pensacola is to be played at Palmetto Beach on next Sunday, December 16. The contestants are to be teams representing the Pensacola Classical School and the Mobile Military Institute.

The Mobile team has already had experience on the gridiron and has proven itself fast and effective. The representatives of the Classical School have been practicing faithfully during the past two weeks. Owing to the late entrance of several of the members of the local team it has been harder than usual for them to get down to constant practice. They have made much progress during the last week, however, and a week of good work with the material at hand should develop a strong team.

The candidates for the school letters "P. C." the right of wearing which will be conferred on all who participate in this game, are Avery, Brent, Brawner, Wilkerson, Skinner, Friedman, Saunders, Duncan, White, Henry, Thornton, Morgan, Turtle, Zeek and Ferris. The exact line up will not be determined before the middle of next week. Several players are showing excellent ability and the most effective placing is just now the problem of the coaches.

The game should be a good one. The teams, it seems, will be about evenly matched as to weight. The advantage of experience in match games is with the boys from Mobile. They have to their credit two or three hard fought contests. This advantage may be overcome by a week of hard work on the part of the Classical students, such work as they seem willing to give.

Manager Ferris of the P. C. S. team is at work on the arrangements for the game. Provision will be made for handling the crowd going to and coming from the park.

This represents the beginning of school football in the city. It is regrettable that the season has been so belated, for it will delay the early development of the school basketball team, for which we have such excellent material in our schools, as was shown in the game at the Y. M. C. A. on Friday night. But football must have its place on the school calendar of games. It is and should be the game of school and college students. It develops manhood, self-restraint, management, and generalship as no other game does. It is worthy of encouragement, and this first effort should receive hearty support.
